Work Experience

Technical Product Manager

DV8 Delta-Santa Ana, CA

January 2025 to Present

• Guide and plan end-to-end product development, leveraging customer insights, competitor analysis, and trend research to oversee sourcing, production, and packaging—from initial concept to final market launch.

• Support sales strategy by identifying growth opportunities and helping expand the distributor network to increase market reach and drive business development.

• Manage procurement and supply chain operations, coordinating directly with overseas vendors to ensure on-time delivery, cost efficiency, and consistent product quality throughout the process.

• Collaborate with marketing and branding teams to shape product positioning and brand messaging across hardware selection, packaging, and social media—ensuring consistency, quality control, and a strong, reputable market presence.

• Oversee project timelines and cross-department communication, ensuring products progress efficiently from ideation through launch with clear deliverables, seamless execution, and a focus on customer satisfaction.

USA Marketing and Brand Operations Manager

Kaiyan Medical & Light Tree Ventures USA LLC-Shenzhen, China

July 2023 to December 2024

• Led multichannel marketing campaigns across five brands, developing comprehensive schedules that boosted brand visibility, engagement, and customer acquisition through innovative, cross-functional marketing initiatives.

• Cultivated and managed relationships with wholesale distributors across the U.S. and international markets, supporting product education, promotional alignment, and sales growth across five brands.

• Led the strategic relocation of company HQ from Minneapolis to Miami, managing logistics for $2M in finished goods to ensure uninterrupted warehouse operations, enhance brand recognition, and support future expansion initiatives.

• Managed operations in a 5,000 sq. ft. facility, directing a 15+ member team to achieve on-time fulfillment of $100K in monthly orders and executing flawless trade show logistics, raising brand visibility and customer satisfaction.

• Implemented advanced inventory control solutions, reducing stock discrepancies by 20% and saving $100K annually, while collaborating with the Shenzhen purchasing team to strengthen product insights and develop executable promotional strategies.

Product Sales Specialist

California Gold-Santa Ana, CA

October 2020 to March 2023

• Acted as a key liaison between production and sales teams, overseeing the daily fulfillment of 4,000+ vape cartridges while ensuring quality standards, on-time delivery, and customer satisfaction across retail and distributor channels.

• Managed inventory and logistics to maintain product availability, supporting sales growth by ensuring efficient stock flow from packaging to shipment with minimal delays or disruptions.

• Processed and managed wholesale and retail customer orders via WIX, ensuring timely fulfillment and accurate communication with over 20+ new wholesalers across the U.S.

• Supported B2B distributor sales through account outreach, product education, and follow-up, contributing to nationwide expansion.

• Sourced and evaluated components from Chinese suppliers to support product development and pricing strategies, enhancing supply chain stability while improving cost-efficiency and product reliability.

Product Operations Coordinator

2WNTY3-Irvine, CA

July 2017 to October 2020

• Led market research efforts to identify industry trends and growth opportunities, guiding new product development and promotional planning in collaboration with clients and partners.

• Optimize product line performance by spearheading the launch of new flavors and strategically introducing line extensions based on pricing forecasts and field research, boosting customer retention and increasing revenue.

• Supervised daily packaging operations for 800–900 cartridges, enforcing quality control procedures and mentoring team members to ensure consistent performance and output.

• Direct post-packaging processes for 1,500–2,000 bulk units per day, designing labeling and bulk packaging workflows to eliminate bottlenecks and enhance operational efficiency.

• Played a key role in cross-functional marketing initiatives, helping expand brand visibility and strengthen customer engagement through targeted product positioning campaigns.

Director of Customer Relations

Brilliance in Commerce-Remote

January 2015 to June 2017

• Delivered exceptional customer support across phone, email, and online platforms, resolving issues within 24 hours to enhance satisfaction and foster customer loyalty.

• Managed customer orders and transactions using WooCommerce and Authorize.net, resolving issues quickly to improve customer satisfaction.

• Handled inbound and outbound client communications to support 200+ accounts, delivering tailored solutions that increased repeat business.

• Proactively pursued and closed deals with potential clients, driving revenue growth through cross-sell and upsell strategies.

• Oversaw $150K in annual transactions on Authorize.net, ensuring compliance and enhancing website functionality for improved customer experience.

Customer Care Technician

Gardensun Heater USA-Baldwin Park, CA

March 2013 to December 2014

• Designed the warehouse layout for a 10,000 sq. ft. facility, managed shipping and receiving operations, and ensured efficient workflow for product handling.

• Provided expert customer service and technical support via phone and email for purchases from Home Depot and Lowe's, addressing product issues and troubleshooting technical problems to maintain an A rating with the BBB.

• Handled spare components shipping and handling for 30+ SKUs, ensuring timely delivery of parts and a seamless customer experience.

Founder and Creative Director

Protoprism | Marketing • Graphics • Web Design-Brea, CA

November 2010 to January 2013

• Enhanced clients' brand presence by implementing innovative digital strategies, driving market expansion and customer acquisition.

• Developed strong client relationships through proactive outreach, securing long-term contracts and contributing to sustained business growth.

• Led multichannel marketing campaigns, designed visually compelling materials, and produced over 100 web pages, significantly increasing client visibility and engagement.

Chief Designer

KIM Lighting-Industry, CA

January 2007 to November 2010

• Developed a product roadmap aligned with company goals, integrating Objectives and Key Results to drive strategic growth in architectural lighting while modernizing the product line with 30+ design updates and launching 3 flagship models.

• Collaborated cross-functionally with leadership, engineering, and merchandising teams to ensure product specifications were met, driving performance improvements and enhancing product-market fit.

• Presented design updates and competitive insights to leadership, leveraging customer feedback to identify growth opportunities and elevate market presence.

Product Design & Development Consultant

The Sliding Door Company - Space Plus-Van Nuys, CA

September 2008 to October 2008

• Streamlined design elements (seams, connections, intersections), reducing material usage by 17% and manufacturing costs, while creating 20+ new and innovative handle designs to enhance product versatility and enable a line extension.

Product Design & Development Consultant

Apricot Designs, Inc-Monrovia, CA

April 2008 to June 2008

• Led the redesign of the company’s flagship pipettor, modernizing its appearance and improving ergonomics to meet updated industry standards. By refreshing the brand image and product positioning—after 15+ years of being unchanged—introduced a contemporary look to attract new customers. Additionally, developed new marketing strategies that bolstered the product’s appeal, increasing brand visibility and enhancing its competitive standing.

User Interface Design Developer

Microsoft Research Asia 微软亚洲研究院-Beijing, China

January 2004 to December 2006

• Defined UI/UX requirements and crafted user stories based on research insights, guiding product development to enhance usability and engagement.

• Managed end-to-end UI/UX projects, coordinating with Microsoft HQ in Redmond, Washington, and technical teams to implement solutions that improved interface efficiency and boosted user engagement by 25%.

• Led usability testing with diverse user groups, refining design elements to enhance user experience and developing a carousel-based design system that reduced software operation times by 30%

Product Design & Development Consultant

Hawking Technology-Irvine, CA

March 2005 to December 2005

• Redesigned the flagship router, transforming its form factor to a modern, attractive appeal, which contributed to 40% of total sales. Updated the aesthetics of the broadband signal booster and internet print server, resulting in the acquisition of 18 new retail clients and increased product visibility. Additionally, collaborated with cross-functional teams to align design changes with product functionality, ensuring both technical feasibility and market readiness.

About Peter

Dear VeSync,

With extensive experience in product development, design, and market strategy, I bring a unique blend of technical expertise and customer-centered marketing skills to the Director of Industrial Design position.

Throughout my career, I have successfully managed cross-functional initiatives to develop and launch products that meet both user needs and market demands. At Kaiyan Medical, I led the creation of product road maps and analyzed competitor offerings to drive strategic growth. Additionally, my work with Hawking Technology and Apricot Designs strengthened my ability to implement design updates that enhanced product appeal and attracted new clients, leading to significant sales growth.

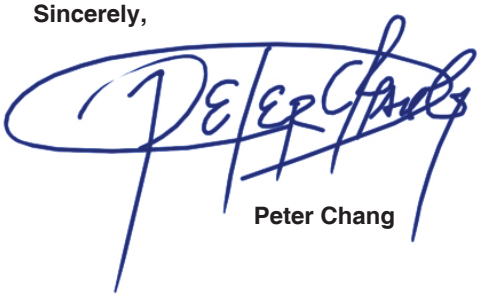

I have also demonstrated my project management and analytical skills by overseeing multiple successful marketing initiatives across a variety of brands in different industries.

As an advocate for user-focused products, I leverage consumer insights and competitive analysis to shape effective go-to-market strategies. My time as Founder & Design Director, Branding and Marketing of Protoprism honed my skills in crafting engaging branding and marketing content that resonates with diverse audiences, while my role at Microsoft Research Asia enabled me to refine products based on data-driven UI/UX testing, increasing user efficiency by 25%.

I am excited about the opportunity to bring this experience to VeSync, where I can contribute to building and promoting products that align with both consumer needs and business goals. Thank you very much for considering my application; I look forward to the possibility of discussing my qualifications further in person.

非常感谢此致敬礼.

Sincerely,

Peter Chang
